Get Account Details

Use Case Summary

Goal	To obtain detailed account information.
Frequency	Multiple times per day.

Success Scenarios

Step	Action
1	The client creates a Get Account Details Request and sends it to the system.
2	The system validates the request, obtains the account details, and sends a Get Account Details Response.
3	The client receives and processes the response.

Exception Scenarios

Step	Action
2	The system determines that one or more elements of the submitted data are invalid. <ol style="list-style-type: none">1. The system sends an Error Response to the client.2. The use case resumes at step 3.
